

End of Day (EOD) Report

Date: 15th July, 2026

Name: M. Abdullah Asim

Accomplishments

- Learning docker fundamentals and provisioning 2 VMs.
- Install and setup Wazuh indexer on Ubuntu server VM.
- Set bridge networking and static IP for Ubuntu Server VM.
- Help project team members in setting up Wazuh manager and dashboard.
- Establishing connection between the 3 systems through certificate sharing through open SSH.

Challenges

- Trying to set matching static IP addresses on all systems and sharing certificates.

What's Next

- Complete the connection between the main 3 systems and configure backend.
- Setup and configure Wazuh agents that will be implemented on all other systems.

Status

Completed today's tasks

Regards,

M. Abdullah Asim
