

# End of Day (EOD) Report

**Date:** 7<sup>th</sup> July, 2026

**Name:** M. Abdullah Asim

## Accomplishments

- Setup Github account and medium account.
  - <https://github.com/AbdullahAsim326>
  - <https://medium.com/@desertsandfly>
- Performed Linux hardening on Ubuntu Virtual machine.
- Setup an intrusion tool(fail2ban), firewall and an AV software (AVClam).
- Connect Ubuntu VM to bridge network.
- Deploy a web server on ubuntu and run a node.js application and test the server with 10 advanced Nmap port scanning commands.

## Challenges

- Bridge network adapter seems to frequently disconnect on VMware.
- Tried to resort issue by connecting to host device's WiFi adapter manually but issue persists again. Resorted to using NAT connection instead.

## What's Next

- Resolve issue with Bridge network adapter connection.
- Prepare a topic presentation for tomorrow.
- Look up tools used by Red team and blue team.

## Status

Completed today's tasks.

**Regards,**

M. Abdullah Asim
