

End of Day (EOD) Report

Date: 24th & 27th July, 2026

Name: M. Abdullah Asim

Accomplishments

- Perform research and create a report on the topic of Cyber essentials v3.3 created by NCSC(National Cyber Security Centre).
- Perform a research on OpenAI's AI models escaping testing sandboxes, going rogue and performing cyber attacks on Hugging Face.
- Setup and demonstrate the Wazuh environment for demonstrating its basic features and purpose.

Challenges

- Wazuh system was initially failing to boot and activate after being shutdown for an extensive period.
- Creating the research report requiring extensive fact checking of all findings and claims.

What's next

- Prepare and configure a VM running the OpenCTI + MISP setup and another VM running a Wazuh system
- Integrate the Wazuh system with OpenCTI + MISP system. And connect agents to the Wazuh indexer.

Regards,

M. Abdullah Asim
