

End of Day (EOD) Report

Date: 30th July, 2026

Name: M. Abdullah Asim

Accomplishments

- Deploy an OpenCTI connector for AlienvaultOTX. This gives us new details and data feed for the latest threats shared online.
- Create wazuh agents on windows server and ubuntu server for custom rule testing.
- Evaluation and reporting of all progress made in internship till now.

Challenges

- The wazuh scripts for some reason won't execute properly on the agents.
- Additionally, there were connection issues between the manager and agent.

What's next

- Finalize the Open CTI + wazuh project
- Try to integrate OpenAEV and see what it does

Status

Completed today's tasks

Regards,

M. Abdullah Asim
